TV & Entertainment System  
Shore Power Socket Aft and Bow  
Blue Tooth Stereo System  
Marine Radar and Auto-Pilot System (needs updating)  
Marine Generator (inoperable – needs diagnostics and repair. Current owner never used it.)

This Carver 396 Aft Cabin Motor Yacht has been nicely maintained, is in excellent condition and is 100% freshwater without ever seeing salt water. The engines have been serviced with new fuel filters, idler pulleys, belts, water pumps, oil changes and they run great. She is ideal for cruising and live-aboard.

The salon is huge and spacious with lots of natural lighting and tall ceilings. This yacht has two staterooms with walk-around queen berths. The forward head is split with the shower stall in the port and toilet compartment to starboard. The aft toilet compartment includes a separate shower. The boat also has TVs in the salon and both berths. For comfort, the boat is equipped with 3 air conditioning/heat units 1 each for the bow cabin, salon and the aft cabin.

When you step down into the galley, you will find sink, built in coffeemaker, built in microwave, stove, a good-sized refrigerator with freezer and lots of cabinet space.

The leather upholstery on the seating in the salon and the flybridge seating are in excellent condition.

You will experience a smooth ride and will handle the rough stuff with ease with the modified deep-v hull design. Whether you are looking for a comfortable, quiet cruising boat or an inexpensive condo on the water, she will fit the bill.

The Cheboygan Country Marina slip is paid for the 2025 summer season for easy access to the Great Lakes and Mackinac Island.

You will need your own chart plotter GPS. It does not come with the boat. Would recommend a unit that is compatible with the Raytheon auto-pilot radar system.

The marine generator is inoperable and needs diagnostics and repair. The current owner never used it

## 2000 Carver 396 Aft Cabin Motor Yacht

Here is a list of features and options:
